MONUMENT FOR THE SOLDIERS. A proposition that should receive the entire support of every citizen in Ogden has been commenced. It is for the erection of a monument in Lester Park near the center of the eastern half in commemoration of the herioc deeds of the Utah Batterles A and B in the wars with Spain and the Filipinos. The monument is to rest 130,000, on the four corners it is proposed to place the staines of George Washington, U. S. Grant, Abraham Lincoln and Brigham Young. The body of the monument to be built of grantic and at the height of ten feet will be placed tables of marble, upon which will be inscribed the names of the Utah volunteers who have lost their lives while defending their country and the story of the deeds of the Utah heroes. This movement started with the Fourth of July committee setting aside all their surplus fund from the celebration for that purpose; and the following committees were appainted to carry on that work. Executive Committee—Wm. Glassman, president; C. P. Jennings, sceretary; Pavid Eccles, treasurer; C. F. Middleton, A. F. Wright, John Scowcroft, L. L. Clark, H. C. Biglow.

MRS. BROWNING WANDERS.

Early Saturday morning Mrs. Stephen M. Browning arose from her bed, put on her wrapper and shoes, and said to her children she wits going out side for a few minutes. The family waited for some time but as she did not refurn they became somewhat alarmed, and started out to find her, but no traces of her whereabouts could be found, and as she had been ill for a long time, which had affected her mind, the family and neighbors thought perhaps something of a serious nature had happened to her. All day Saturday, and that night was spent by many relatives and friends about the river and all through the fields but of no avail, so they decided to so up towards the mountains yesterday morning and search, and after several hours of inquiry and hunting, the missing lady was found at the house of some friends near the foot of the mountains. She had wandered there on Saturday and was being well that of the mountains. She had wandered there on Saturday and was being well carted for. The husband and family were overloyed to find her again, not having met with any serious accident, and they feel very thankful to the friends who so kindly took Mrs. Browning in and cared for her, perhaps preventing her from sections accident, and to possibly death if she had gotten high preventing her from sectous accident or possibly death if she had gotten high up among the rough ledges.

whether it is to be understood from the

Special per Deseret Telegraph:

Hichfield, Utah, Aug. 19.—About 11 o'clock this foremoon, George Larsen of this place, aged 16 years, was fatally shot by Charley Jemen, aged 15 years. The two boys went out to the stone quarry this morning, with some neighbor boys, who were hauling rock. When the wagon was loaded the Jensen boy got on to come to town. He held in his hands an old double-barreled muzzle loading shotgun, that he was intending to bring with him. The Larsen boy wanted to keep the gun at the quarry until the wagon came for another load and so grabbed hold of the barrel to jerk it away from Jensen. While thus pulling, the one who had hold of the muzzle, and the other the stock, the sun was discharged, and its whole contents, consisting of No. 5 shot, entered Larsen's abdomen, completely tearing it open, and causing his severed intestines to gush out.

The wounded boy was impadiately.

shot, entered Larsen, and causing his severed intestines to gush out. The wounded boy was immediately brought to town, and Dr. Griffiths was summoned to attend him. An examination convinced the doctor that the wound was fatal and that the boy had but a short time to live.

The dying boy says the shooting was entirely accidental, and attaches no intentional wrong to the other boy.

The wounded boy is the son of Christian Larsen and the other is the son of Jens L. Larsen, both of this city.

Richfield, Aug. 20.—A very sad accident happened at Monroe a couple of days ago by which the 17-months'old child of Brigham Juliander lost its life. The mother of the child had been washing and left about a bucketful of water in the boiler. She then went a short distance from the house to turn the water on the garden, leaving the child in charge of its father.

It seems that Mr. Juliander fell asleep, and upon the mother's return to the house, about twenty minutes later, she found the child in the boiler drowned. Attempts to resuscitate it proved vain.

Special Correspondence.

Vernal, Aug 19.—Today is being observed as a general holiday in Vernal agreable to the Governor's proclamation and if we were only connected with the capital by railroad Ulntah county would contribute a large contingent to the multitude who will assemble to do honor to the returned volunteers.

Speaking of railroads it was reported on the streets the other day that there is a corps of surveyors in Nine Mile Canyon between this place and Price looking out a route for a branch of the Rio Grande Western. Out here it is not generally believed, for it is thought that when the road does come, and its coming is inevitable, it will come down the Duchesne river. The natural grade of the country between this place and Sait Lake as well as the most direct route, is up the Provo river from Heber then down the Duchesne river. This route would not only give a better grade but would tap one of the largest timber sections in the State and traverse the Indian reservation its entire length and in the best and most fertile posts. When the reservation is thrown open to settlers they will build their towns along the Duchesne and there is room for hundreds of them between Vernal and the upper Indian farms.

We have had a stormy time lately, but the cilimax came at Green River iffecen miles below here. Hall of immense size fell and some fields of grain were literally wiped out of existence, also the second crop of lucern, which was only partly gathered. The hall came with such terrific force that the windows on the south and west iddes of the houses were completely shattered. At sunrise next morning there were drifts of hall six inches deep and blocks of ice an inch in diameter.

MOUNT PLEASANT.

Viscious Horse Injures Mr. Averett; ; Narrow Escape for His Son Earl. Special Correspondence.

Special Correspondence.

Mt. Pleasant, Aug. 19.—Mr. John Averett of this city had a most unusual experience with a vicious horse on Friday, at Peter Lowry's saw mill in the mountains east of town. He was trying to adjust a loop on the horse's nose when it suddenly reared, and falling with full force upon Mr. Averett, struck him first between the shoulders, felling him to the ground, then stamping upon him, injuring his leg in such a manner that it is feared the bone is fractured. Dr. Casaday, who aftended the injured

man, is unable to decide at this writing just how badly the man is injured, but the imprints of the horse's shoes are plaint descernable on his body and limbs. Here resting quite easily and hopes to be at work again shortly.

Mr. Averett's little son, Earl, nearly lost his life at the same mill by failing under a moving log. His head was twisted under his body until it looked as though his neck must be broken. The log was removed from his body, where it had stopped, and the little fellow was picked up apparently dead, but after restoratives were applied for some time, he gave evidences of returning life. During the night he regained consciousness, and today is apparently none the worse for his narrow escape.

Mt. Pleasant is to have a soda water factory. A gentleman from Mercur is arranging to establish a bottling plant, where he proposes to manufacture and bottle soda water for the market. He proposes to supply southern Utah with this beverage.

Springville, Aug. 21.—The enterprising town of Springville was not to be outdone by any city in the State in paying homage to the brave boys who were willing to leave home, friends and even life itself, to lay on the sitar of sacrifice for their country. As the 6:30 train pulled in carrying the brave boys an enthusiastic following of about 2,000 people and children of the different Sunday schools to the number of five of six hundred, were standing on both sides of Roylance street from the depot east. The children all carried flags and banners, and a great many had bouquets of flowers, which they showered on the reflowers, which they showered on the re-turning heroes as they marched through turning heroes as they marched through their ranks. Springville was decked out with flags and bunting in a manner never before seen in the history of the town. Business houses were decorated and nearly every dwelling on Roylance and State streets along the line of march was decorated in honor of the occasion. When the train pulled into the station, cheers and greetings were showered galore. The line of march was formed and the soldiers escorted to the city hall square. Messrs. Hyram Hickman and Fred Line-back Overpowered by Firedamp. Special Correspondence.

Special Correspondence.

Stockton, Utah, Aug. Zi.—Mr. Hyrum Hickman, a weil known citizen of this place, with a companion, Mr. Fred Linebach of Ophir, were found overspowered by foul air in a prospect shaft between West Dip and Ophir on Saturday morning about 11:30. Their lifeless bodies were discovered by a searching party, lying in the bottom of the shaft, having, it is thought, to have been since late Friday night.

Mr. Hickman left home about 3:30 on Friday afternoon without leaving any word as to his intentions, and the only information that could be gleaned, was from a friend from whom he had borrowed a horse and saddle and told that he desired to get his tools from a shaft near the old Baltic upon which he had been doing some work. Before leaving town, Mr. Linebach was seen to Join him, both men riding the borrowed horse. Arriving at the shaft, it is supposed that the men started down and became overpowered by "black damp."

and became overpowered by "black damp."

When night came on and Mr. Hickman had not returned, his wife became worried, and early the next morning as searching party started after the missing men. Arriving at the prospect it was found to be filled with "black damp." Five hours were occupied in clearing it out before the bodies of the men were found.

Hickman had been a resident of Stockton for over twenty years, and was very popular. He was 37 years of anc, and leaves a wife and four children. Linebach lived with his parents on a ranch near Ophir, and was 30 years of age. They will be buried at Stockton tomorrow.

NOTICE. There are delinquent upon the following described stock, on account of assessment No.1, of k, cont. per share, revised on the 6th day of July 1868, the several amounts set opposite the names of the respective shareholders, as follows:

STATE FISH HATCHERY SITE WANTED

In pursuance of law enacted by the last Legislature the state fish and game commis-sioner is authorized and directed to greet and Legislature the state fish and game commissioner is authorized and directed to erect and maintain a fish harderer in this state. For the purpose of artificial propagation and distribution of food or commercial fishes, and the necessary lands on which is to be erected the hatchery mentioned, may be obtained by purchase or otherwise by the governor and state commissioner, taking deed or deeds therefore in the name of the State of Unit.

To carry out the provisions of said act, an appropriation of five thousand dollars was made by the Legislature to erect and maintain such hatchery for the years 189 and 1800. This sum being none two much for the building and proper equipment of the hatchery alone, the strictest economy in its expenditures will have to be maintained, and any assistance that may be rendered in pro-

For the education of school children, in the object lesson, it would afford as well as for the content of the cities, towns and counties of the state to have it established where school children and the general public could get the greatest benefit from it.

The requirements for the location of such she hatchery, are a liberal supply of coid spring water the temperature of which should range not higher than 35° F with from 2 to 10 feet fall between spring and some low point near by, so that water could be piped from the spring into the hatchery. It is also desirable that it be in a locality where flowing wells can be obtained, and as near as practicable to one of the principal railways lide or propositions for side for and scate and some practicable to one of the principal railways lide or propositions for side for and scate downly Building, Sait Lake City, until September 1st 1896.
